

Eyjafjallajökull * Volcano Model

© BGS, UKRI 2020

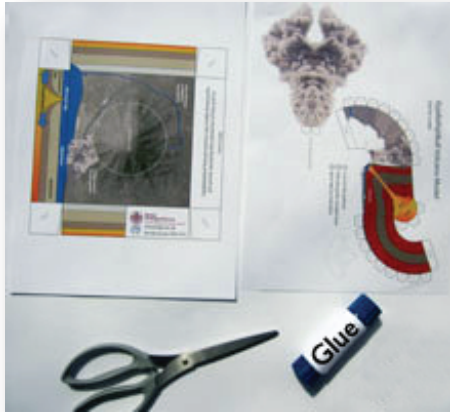

B.Base

(not to scale)

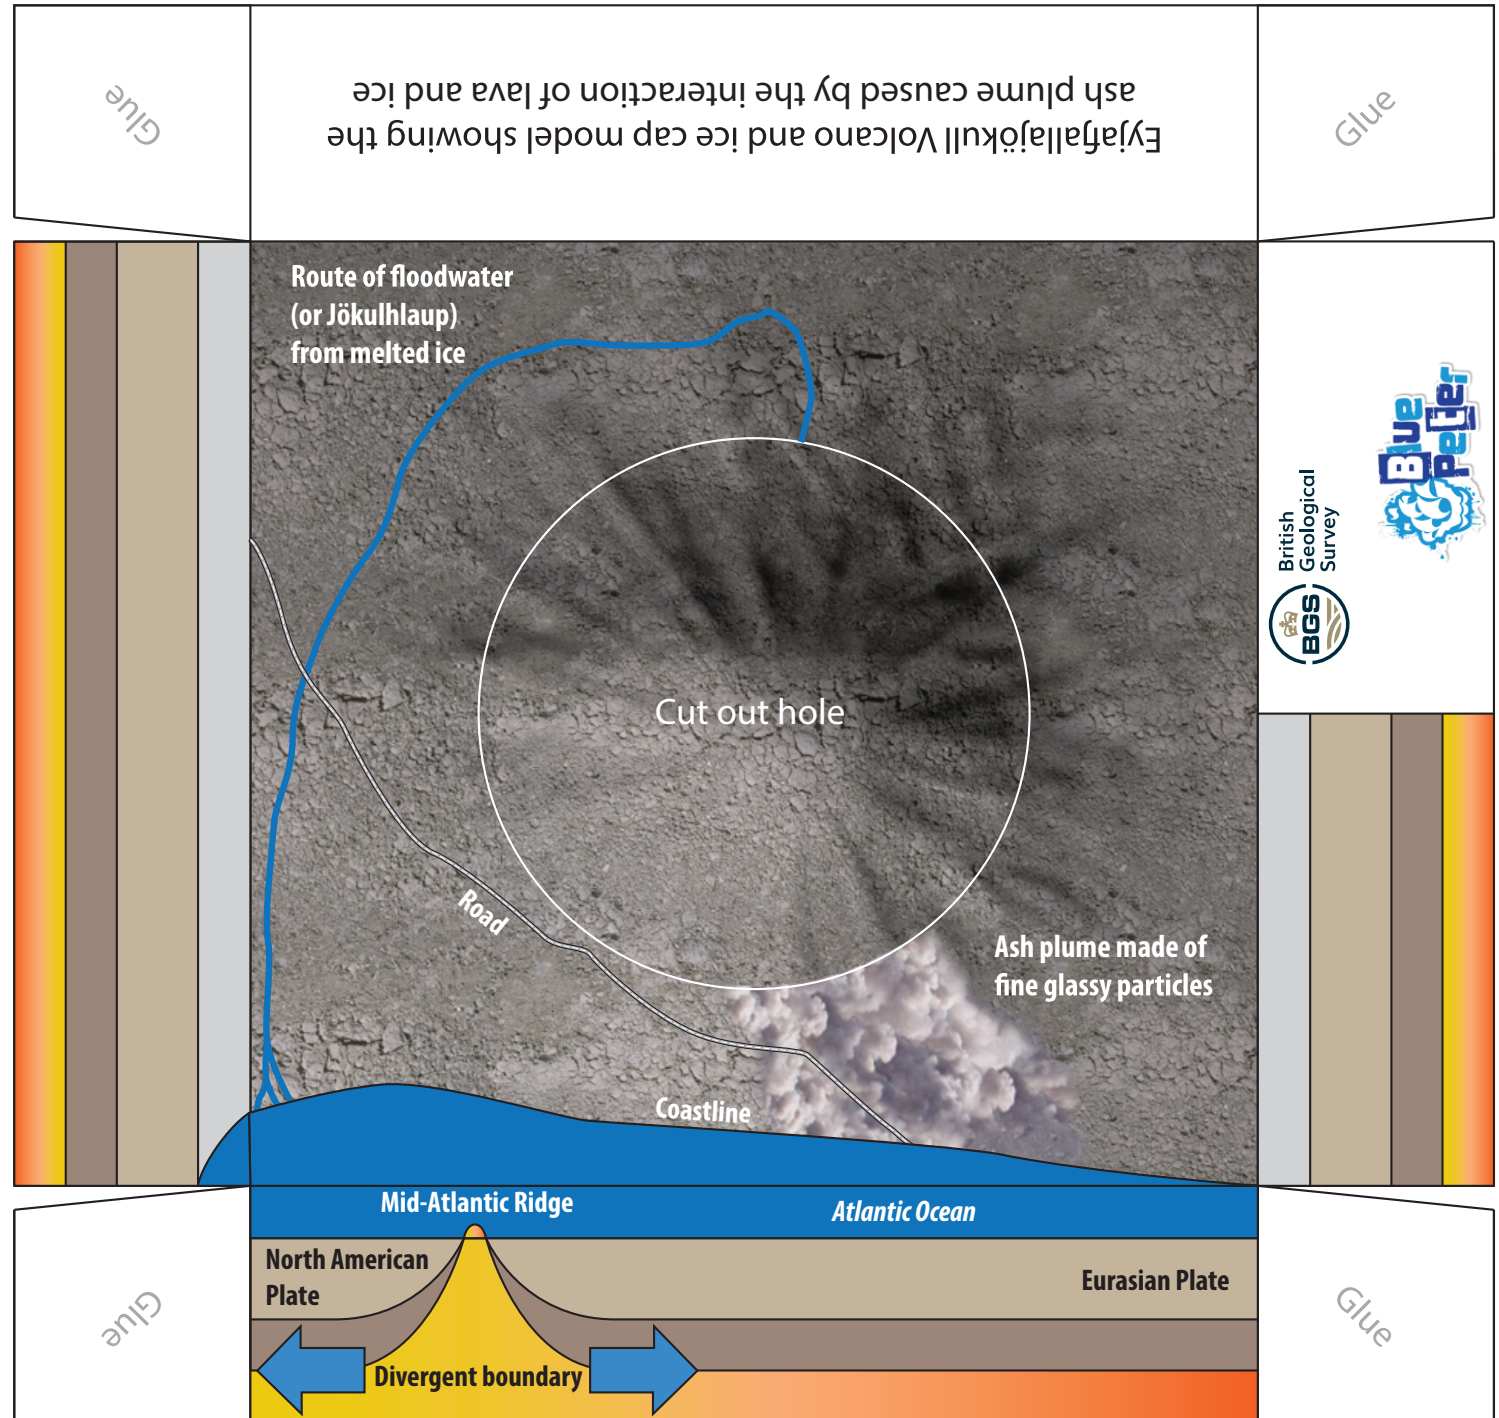

* pronounced Aya-feeyalla-yurkul

What you will need:

- Cut around the 3 parts of the model — you may need to get an adult to help you
 - Ash plume
 - Base
 - Summit and crater
- Ash plume:** fold and glue the two halves together
- Base:** cut out the hole in the middle of the base
- Base:** fold along the thick black lines and glue tabs to make-up the model like a box lid. Allow to dry.
- Summit and crater:** fold as shown in the images on page 2. Half the 'cone' points downwards.
- Glue the summit and crater to the base as shown in the image on page 2.
- Glue the ash plume to the summit and crater
